## EZ-131/12

**Item Number 4689122**

High-performance sealant for extreme requirements in refrigeration, air conditioning, sanitary, automotive and industrial systems.

Suitable for all common materials (metal & plastic)

Packaging unit: 12 pieces / pack

- Versatile - for threads, flanges, sealing surfaces
- Easy to use - can be applied with a brush, easy to remove
- Flexible - does not harden, does not become brittle
- Temperature-resistant from -129 °C to +204 °C
- Chemical-resistant - resistant to all common refrigerants (e.g. R12, R22, R134a, R502 and all CFCs, HFCs and HCFCs), oils, water, acids and bases
- Prevents the loosening of connections due to vibrations
- Contains PTFE - for optimum lubricity, simplified assembly and increased chemical resistance
